## HOANG GIA MINERAL GROUP JOINT STOCK COMPANY

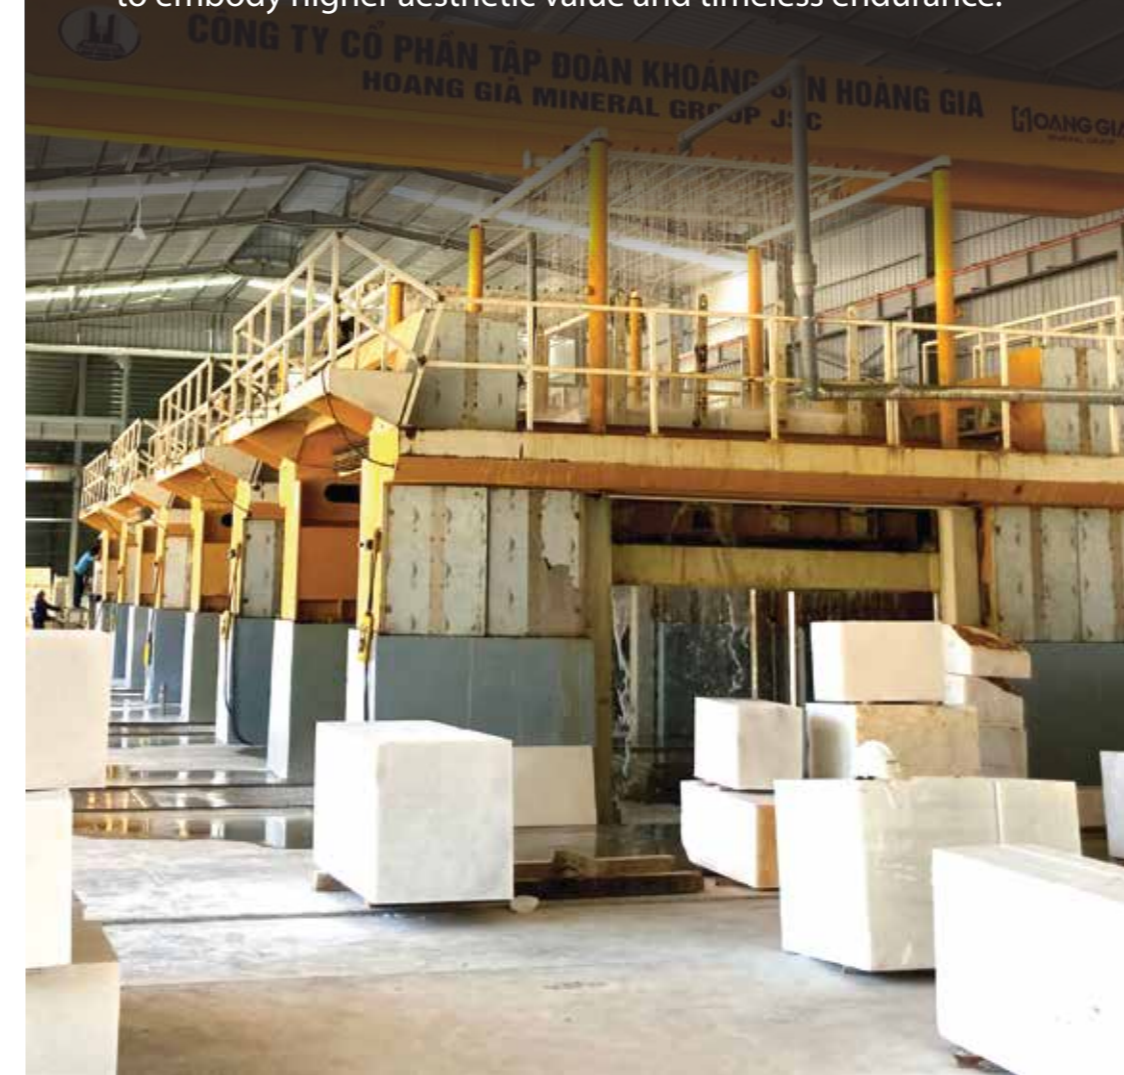

Hoang Gia mineral Joint Stock Company, established in 2004, is proud to be one of the leading companies in the field of extracting, manufacturing and exporting Vietnam white marble. Its own modern factory is located in Nghe An province, Vietnam and is equipped with the latest machines to produce all the marble products.

- Total area: 50,000 m<sup>2</sup>
- Capacity: 100 containers /month
- Main products: Rough Blocks, Polished Slabs, Cut- to- size Tiles, Wall Cladding in all finishes.

## VISION

Hoang Gia Mineral Group JSC., company's primary goal is to bring satisfaction and comfort to our customers. We cherish and value marble products from the stages of extraction and production to deliver to our customers. Our marble products are not merely simple building materials; they are transformed to embody higher aesthetic value and timeless endurance.

## QUALITY

Our marble products meet both aesthetic standards and international quality specifications. We have invested significantly in modern machineries and equipment at our quarries and factory. Every stage of operation is closely monitored and regularly inspected to ensure the highest quality for our final products.

## QUARRY

The company taking great pride in owning three quarries for Crystal white marble, one for Melon striped white marble, and the other one with a variety of colored stones including milky white, yellow, black, and wood grain, all of high quality.

## EQUIPMENTS

The modern equipment and machinery system is fully equipped, from mining sites to the factory, such as the diamond wire cutting machines, large and small capacity crane systems, Gangsaw cutting machines, polishing lines, an automatic dual-blade edge cutting system, etc. These technologies deliver high efficiency and precision, meeting all processing and production demands for diverse products.

# EXPORT

Meeting high-quality standards is a leading factor in the production process at Hoang Gia factory. As a result, the company's products are exported to numerous major markets worldwide, including India, Turkey, Arabia, Iraq, the United States, Australia, Malaysia, China, South Korea, Japan, Taiwan, etc.

## ROUGH BLOCK

**WHITE MARBLE** is a natural stone that possesses a unique beauty, symbolizing nobility, luxury, elegance, and timelessness."

Throughout history, White marble has always been an endless source of inspiration for architects, designers, and artisans. It can be found in iconic buildings tied to historical significance, as well as in modern, high-class structures, exquisite sculptures, and precious jewelry with meaningful feng shui symbolism."

Unique beauty

High durability

Good water resistance

Easy to clean

Good feng shui

WHITE MARBLE - B

CLOUDY WHITE MARBLE

**TUYET SON** (Vietnam Zebra marble stone) - a rare natural stone with a unique appearance of interwoven black and white stripes, creating artistic and distinctive patterns that few other natural stones possess. Tuyet Son Stone originates from and is quarried at mines in Nghe An, Vietnam."

With the beauty of strong geometric forms combined with the softness of its colored veins, Tuyet Son Stone has become a highly favored material in luxurious interior spaces, garden landscapes, and exquisite stone art creations.

Tuyet Son Stone is particularly valued for its positive feng shui meanings, believed to bring wealth, good fortune, and health to its owner.

# SLAB/TILE

**NATURAL WHITE MARBE** - A Luxurious Highlight for Your Space.

**Application:**

Wall cladding, flooring all interior spaces and exterior spaces.  
Furnitures: countertop, reception desk, table tops, etc.

**Surface:**

Polished, Honed.

**Warning:**

Use pads when placing hot objects to avoid thermal shock.  
Avoid cutting on the surface because of creating scratches.  
Wipe stains of tea, coffec and color liquids to avoid stain.  
Only wipe by water, avoid strong cleaning liquid or acid.
